

## WILL USE ADS TO SELL SHIPS

Shipping Board Plans National-Wide Campaign For Buyers.

EXPERTS CO-OPERATE

Committee of National Advertisers Will Prepare Sale Specifications.

The sale of America's war-built merchant marine and the property of the Shipping Board, authorized by the new merchant marine act, will be conducted through a nationwide advertising campaign, which will have for its purpose not only the disposal of the ships but, the education of the American people in foreign trade matters and shipping in general.

As the result of a conference yesterday between Admiral Benson, chairman of the Shipping Board, and representatives of more than a dozen big advertising agencies it was agreed that the board should make a survey of all its property before it was advertised for sale. At the suggestion of the advertisers, Herman Lane, of the Shipping Board, was named advertising director, and the board will authorize the expenditure of \$50,000 for the purpose of making the survey. The plan was sanctioned by Admiral Benson and John Donald, a member of the board, and will be approved formally at the next regular meeting. The advertisers' committee was composed of the following members:

O. H. Blackman, the Blackman Company, chairman; William H. Johns, George Batten Company, Inc.; Stanley Besor, J. Walter Thompson Company; Frank Presbury, Collin Armstrong; Wendell P. Colton; Robert Herman, Albert Frank Company; Thomas F. Logan, Walter R. Hine, Frank Seaman, Inc.; Robert Tinsman, Federal Advertising Agency, Inc.; Paul E. Faust, Mitchell-Faust Advertising Company; John P. Hallman, the H. K. McCann Company, and James O'Shaughnessy, Advertising Agencies Corporation.

(Public Ledger Service.)

## Gas Company Secures Oil Below Market Figures

Gratification was expressed yesterday by officials of the Washington Gas Light Company at being able to obtain their July supply of 1,150,000 gallons of gas oil at 12 1/2 cents per gallon instead of the prevailing along the coast of 15 and 16 cents a gallon.

The price of the oil, which was bought from the Standard Oil Company of New Jersey, is one of a cent more per gallon than the June figure. This increase will add \$2,800 on the oil bill for July. The raise in price will be met by the company, as the consumer's price for gas was recently fixed by the District Commissioners at \$1.25 per 1,000 cubic feet.

## Comfort Baby's Skin With Cuticura Soap And Fragrant Talcum

For sample Cuticura Soap, in a box, and Fragrant Talcum, in a box, write to: Cuticura Soap Co., 100 N. 3rd St., New York, N. Y.

# Chase Out the Germs Of Rheumatism

## Untold Suffering Caused by Tiny Pain Demons.

Just because the pangs of your rheumatism seem to diminish as warm weather approaches, do not make the serious mistake of feeling that you are about to conquer this disabling disease.

Under no circumstances should you let up in your efforts to combat this affliction, but you would be wise, rather, to redouble them, and take advantage of the favorable season to rout the disease germs from the system.

The best time to successfully combat the germs of Rheumatism is during the mild season while they are less active, and will respond more readily to the right method of treatment.

And this is why you should not lose the opportunity of a thorough, rigorous course of treatment during the summer months. Many victims of Rheumatism indulge in the delusion that they are at last free from the clutches of the disease simply because they feel little or no discomfort during the mild season.

But with the first approach of cool, damp weather next fall, you will find that the little pain demons will gradually become aroused from their summer slumbers, ready to renew their attack with increased fury. The best time to rid the system of the germs of rheumatism is while they are dormant and inactive, because they are less able

## This Smiling Chinese Face Is on Its Way to Washington

Mrs. Eu Chow Yen

Mrs. Eu Chow Yen, of China, is a paragon of diplomacy. Her father was a delegate from North China to the Paris Peace Conference, and her father-in-law a delegate from South China.

Mrs. Yen's home is in Peking, but she's en route to Washington with her two sisters to join her husband, who is head of the Chinese Educational Commission to America.

She and her husband were married in China only a few months ago, but she was educated at the University of Washington at Seattle. Her English diction is perfect, and she dresses in the latest Broadway fashion.

## PEPCO BURNING RESERVE COAL

Power Shut Down Feared Unless New Supply Comes Soon.

Washington may be lightless for some time unless the coal now on the way to the Potomac Electric Power Company, arrives before the end of the present week, according to William F. Ham, president of the company, who yesterday described the fuel situation as "serious."

The company's reserve supply, enough to operate power houses for nearly a week, has been drawn on for two days. The power stations burn about eleven carloads a day and should be receiving that much daily from the mines. No coal has been delivered since Monday.

A large quantity of coal is on its way here, and is reported as being somewhere between Washington and Brunswick, Md.

## Refuses Help To Dry Agents

Baltimore Police Informed U. S. Must Enforce Volstead Law.

Baltimore, June 23.—The Volstead enforcement act must be taken care of by Federal officials alone, and local prohibition Director Stone has no right to expect the police of Baltimore city to help out his sleuths in conducting raids, making arrests or otherwise carrying out the provisions of that act.

This is the gist of the advice today given Police Commissioner Charles D. Gaither by Attorney General Armstrong and advisor of all officials of the State government.

Armstrong's advice to Police Commissioner Gaither was asked by the Baltimore Police Department when the Volstead-Julius case when a reputable physician of Baltimore was accused at 4 o'clock in the morning by one of the representatives of the local prohibition director's office who afterwards turned out to have a police record, in sweeping in its denial of the right of the Federal officers to call upon Maryland officials to enforce their law for them.

Under its terms not only the city police but State officials are under no obligation to help the prohibition officers.

## ASKS NOOSE FOR M'HENRY

Boy Slayer Supreme Egoist Declares Attorney in Closing Argument.

CASE TO JURY TODAY

Youth Probably Will Know His Fate This Afternoon.

Declaring death by hanging the only proper punishment to be meted out to John McHenry for the murder of Detective Armstrong, Assistant District Attorney James B. Archer yesterday in his argument to the jury demanded that they bring in a verdict of guilty of murder in the first degree.

McHenry did not wince or manifest the least concern. He was the same indifferent, saucy-looking boy he has been all through the trial. Archer pictured the boy as a smart, daring criminal, capable of any crime that required courage and initiative. He went over the long list of crimes attributed to McHenry.

The prosecution unlimbered its big guns on the arguments of the defense that the youth who killed two men was incapable of choosing between right and wrong.

Archer was unsparring in his criticism of Dr. John M. Ladd, alienist for the defense. This criticism was objected to by S. McComas Hawken, counsel for McHenry. Hawken also objected to McHenry being styled an "arch villain."

McHenry's whole attitude on life, Archer claimed, was to be careful not to harm himself.

Attorney George F. Havell, associate counsel for the defense with Hawken, will make an appeal to the jury this morning to acquit the boy on the ground of insanity. He will be followed by Assistant District Attorney Paul B. Cromelin. Hawken will close for the defense.

## AGED WORKERS ASK RETENTION

Pension Benefits Insufficient To Warrant Quitting Service, They Declare.

Employees of the Federal government coming within the provisions of the retirement law are applying in large numbers to be retained in the service, it was learned yesterday. Many of the applications for retirement received at the Pension Office are accompanied by a second application seeking retention in the service.

Government officials expected to be besieged by numerous appeals of people who could not get along even on the maximum retirement pay of \$720 a year.

Many people in the government service who are of retirement age and are drawn to the Pension Office, where there is a great number of superannuated government employees, many of them have applied to stay in the service.

In line with the recent decision of the Secretary of the Interior, it was said, each case will be decided on its merits and solely on the ground as to whether the applicant is efficient. This will be determined by the records of personal knowledge of the employee.

Practically all the forms necessary to the enforcement of the new law now are awaiting the completion of the rule-making procedure. This will complete the machinery, and the bureau then will undertake the consideration of applications.

The deductions from salaries on account of retirement will not begin until the first of August. At that time 2 1/2 per cent will be deducted from the salary of each employee in the classified civil service in order to pay for his retirement.
